Allowable Subject Matter

Claims 7-12 and 19-24 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not teach or suggest an optical recording medium or method of using a medium comprising a recording layer, a color-forming layer and a protective layer where the color-forming layer is capable of changing into a read-inhibiting state and the protective layer includes an additive which, upon exposure to radiation capable of reversing the color-forming layer into a read-enable state, changes into a read-inhibiting state, thereby rendering the medium unreadable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
